Your Premier Autism Service Provider

Direct Interventionist Employment Opportunities

Autism Spectrum Interventions (ASI) provides a free training for students interested in learning about Autism, Applied Behavior Analysis (ABA) and other developmental challenges and interventions.

Employment at ASI is a great opportunity for students to gain paid work experience in the field.

Autism Spectrum Interventions also offers free supervision to our staff for BCBA, BCaBA and MFTi's who are acquiring hours.

ASI is a growing and successful agency. Our success is founded in our commitment to providing exceptional care for every one of our clients and their families. This begins with the selection of amazing staff and intensive training. ASI is an organization that will maximize your potential as an interventionist and you will have the pride of knowing that you are maximizing the potential of your clients.

ASI provides in-home, at school and in the community behavioral intervention services throughout Orange County, Long Beach and throughout Los Angeles, Riverside and San Bernardino counties. We are looking to employ students as behavior interventionists who are studying ABA, Marriage and Family Therapy, Psychology, Education, Speech and Language Therapy, Occupational Therapy or a similar field and are interested in employment. Many students find this work very rewarding as it allows them a firsthand opportunity to work in their field of interest, pays well and the hours are flexible.

This is a great opportunity for students to gain paid work experience in the field.

ASI's workshop overview of Autism and ABA training is free to all who are invited.

Most afternoon sessions last between 2-3 hours depending on the age and abilities of the client. Most school sessions begin around 8am and conclude around 3pm. A supervisor visits each case weekly and overlaps with staff, to observe intervention, to work with the families and staff as well as maintain a book of programs. ASI staff are trained on every aspect of the expected duties.

Most people, including myself, find this job very rewarding. I enjoy watching the clients acquire new life skills, and I take pride of my contribution. I love working with these individuals and their families and am looking to hire to people with the same enthusiasm.

ASI offers free supervision for staff who are acquiring hours towards the BCBA and MFT interns.

If you have an interest in this type of work please email workshops@ASIAutism.com

Sincerely,
Timothy M. Prior, M.S., BCBA, LMFT
